God's Brain (Hardback)

By Lionel Tiger, Michael McGuire

Prometheus Books, United States, 2010. Hardback. Book Condition: New. 229 x 155 mm. Language: English . Brand New Book. In the fractious debate on the existence of God and the nature of religion, two distinguished authors radically alter the discussion. Taking a perspective rooted in evolutionary biology with a focus on brain science, the authors elucidate the perennial questions about religion: What is its purpose? How did it arise? What is its source? Why does every known culture have some form of it? Their answer is deceptively simple, yet at the same time highly complex: The brain creates religion and its varied concepts of God, and then in turn feeds on its creation to satisfy innate neurological and associated social needs. Brain science reveals that humans and other primates alike are afflicted by unavoidable sources of stress that the authors describe as brainpain. To cope with this affliction people seek to brainsoothe. We humans use religion and its social structures to induce brainsoothing as a relief for innate anxiety. How we do this is the subject of this groundbreaking book. In a concise, lively, accessible, and witty style, the authors combine zoom-lens vignettes of religious practices with discussions of the...

Reviews

The very best publication I have ever read. It really is basic but shocks inside the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.
